## Crops

**Strawberries: Established fields:** 1) Plan to renovate 2-4 weeks after the end of harvest. 2) Treat for weevils if needed. **New fields:** Treat for twospotted mites if needed.

## Insect monitoring update:

1) **Oblique Banded Leafroller** adult trap counts are now going down.

2) **Two-spotted mite** numbers are rising in some of the newly planted strawberry fields in the Willamette Valley.

**Field Days:** 1) **WSU Raspberry**, July 13, Puyallup, 6-8 PM. ) **WSU Raspberry/Blueberry**, July 20, Mt. Vernon, 4-6 PM.

**Weather:** Remaining dry. Going up into the mid 80's Sunday and into next week.
